

G.W.P. 04 Offer Conditions PROTO DIE Other Materials

1. In the production of prototype tools, an up-to-date technical drawing (CAD drawing, PDF format), which has been created according to our technical instructions, is indispensable. If drawings are already submitted to G.W.P., please ignore this advice.
2. The prototype tools manufactured by us are exclusively meant for in-house use on our premises. Shipping is not possible.
3. **Delivery Time:**
 - a. PROTO DIE-tool/first unprocessed prototypes in the G.W.P. standard material ADC12 (AlSi10Cu2Fe): ... working days ex works, depending on the extent of our production capacity utilization at the order date.
 - b. First processed PROTOE DIE parts, including (CNC-) post processing: approx. 3-10 working days, depending on the complexity and the machine utilization at the time of completion. Alternatively, the client can purchase unprocessed, unfinished parts and post-process them himself.
 - c. Subsequent samples/other batches after design modification of the PROTO DIE tool: from 5 working days
 - d. PROTO DIE molded parts: working day/pieces approx. ... / ...
4. **Payment Conditions:**
 - a. for PROTO DIE tool: 50% due upon placing the order, 50 % due at the time of the delivery of first molded parts
 - b. for PROTO DIE molded parts: net upon receipt
5. G.W.P. standard packaging is included in the price.
6. The drawings presented to G.W.P. at the time of the offer shall be valid.
7. Offer period 30 days – longer commitment periods shall be agreed upon separately for each project.
8. All errors in the calculation of PROTO DIE prototypes expected.
9. Our contractual terms for PROTO DIE apply.
